

From Billy F Sutzshin

To The Honorable Shelly C Chapman Hilltop W

I am writing to you about the Bankruptcy of Patriot Coal. I was put into this company after I retired from Peabody Coal Co in October. I never worked a day for Patriot Coal Co

I know this is a problem for miners with health problems such as I have, from all the coal dust and dirt that we put our bodies thru and around the mines

I have lung problems that I take inhalers & pills to ease my breath. I also have had broken leg and kn ligaments tore up and have R.A. arth that I have to take pain medication to help with the pain each day. I also had open heart surgery in September 2007 for 5 By passes.

My prayer is that you would ^{take} the in consideration of your decision for Patriot and Peabody court case for Bankruptcy.

If we lose our health coverage, no insurance Co would take us with or of our disability.

So We ask this for the miners, union or non union men & women

We only ask this for our health
care and relief of Pain & Suffering
because medicare does not cover
everything

Thank you for taking time to read
this and May God Bless you

Thanks
