

Dear Shelley,

I'm writing this letter to let you know how bad it would hurt me if I lost my Benefits. I'm 72 yrs old, with a lot of health problems. I'm a bad Diabetic and take three shots a day a long with all my medicines I have to take, I also have High blood pressure, and to take a lot of medicine. I also have Muscular Deterioration, and have to be treated for that also and I also have Arthritis.

Without my Insurance, I could not come up with enough money to get my medicine.

I pray every night that this won't happen for me and all the other people who it concerns.

May God Bless
Martha N Jones
