

Dear Judge,

I am a 64 year old widow.  
I have a deadly type of anemia  
called (Pernicious). I take injections  
monthly, high blood pressure,  
thyroid disease, Glaucoma of the  
eyes, I would not be able  
to live without my injections  
for the blood disease. I have  
to have stomach exams,  
and blood work shot with  
this disease. Please try to help  
me keep my medical insurance  
with the coal mines.

Thanks,  
Nancy A. Vaughn
