The Honorable Shelley C. Chapman,

Dear Shelly, I am writing you to let you know how important it is for my husband and I to keep our health insurance. Something has happened to my legs and I am unable to walk I need to have an MRI, xRays and other test to determine what has happened and to see what can be done so that I can walk again. I need a hoveround chair because I am too heavy and my husband cant lift me. I have HBP, High cholesterol, Thyroid problems, arthritis, and sin in constant pain. I dont want to start these test or surgery's and not be able to complete them. My husband has a place over his eye the Dr. say it is cancer and he needs surgery and treatment on this, he also has a severe case of Acid Reflux and cannot go without his medicine. He is laid off at this time and we cannot afford to pay for any of this. My prayer is that we can keep our insurance so that we can rightly get the

medical attention we need and deserve. My husband worked hard for this and he was proud to be a coal miner, He loved his ~~job~~ job and would go back to work if they were to open back up. I pray that God lets everyone involved make the right decisions. We don't abuse our insurance we use it only when necessary. May God Bless you.
