

The Honorable Shelley Chapman

My name is Bobby R. Warley. I am a retiree from Peabody Coal Co. with 34½ years of service. I did not work for Patriot Coal Co., Peabody spun this company off just to fail and take our pension's and Health care. I spent my life working hard for them just to get my pension and Health care, now they just want to get rich off our work by taking everything. The Company people that worked with us still get their benefits from Peabody, not Patriot, we should too. Don't let them take everything we worked hard for. May God guide you in your decision.

I thank you
Bobby R. Warley
