EASTERN DISTRICT OF MISSOURI

Honorable Kathy A. Suratt - States,

I am a sixty year old woman with health problems. I have had two heart attacks and I have COPD. I am on oxygen twenty-four hours a day. My time on this earth is limited.

Why do I have to live my last years being worried about having health care and receiving my husband's retirement? A Retirement that he worked long and hard hours to get.

In my eyes these companies are committing MURDER! They are slowly killing me. It is called stress and it does kill. I do not need this, and I am sure there are others who do not need this.

The day my husband turned fifty-five we thought our health care

would be taken care of
for the rest of our lives.
(as Promised.)

He gave these companies
thirty - six years of his
life. On April 4th, 2007
after working a double shift,
I found him dead on the
the kitchen floor of our
home. He is not here
to help fight this fight
for me.

I live in a county
where these companies are
still working every day,
making millions or billions
of dollars. To be doing
this to us is wrong!

I only wish I had
thirty - six more years to spend
with Arla R. Hicks Jr. the
love of my life and the father
of two wonderful daughters.

Please don't kill me
with all this worry and aggravation
My husband gave these companies his
best, they need to do the same
for me. I'm just a lonely
widow, I deserve better!

Thank you! Patricia Hicks
