

Jan 25-2013

To the Honorable

Kathy A Surratt States

I have written you one letter, but I don't know if I told you my husband worked a year after his surgery, of losing his right lung do to Black lung and Cancer. Just so we could have our insurance to take care of us. It was the worse year of his life that year.

I can't understand why this Coal Company makes promises to they workers that later in years break them.

I am 76 years old & a widow.

My husband worked hard for peabody now they think they can just away and think nothing of us. I need my insurance and my little pension to live on. My pace maker has to be checked on every three of four months, and I go to

(2)

Doctor every six months, I am on Warfarin I have to have that checked once a month. I had the flu in Sept of last year. And had pneumonia my lungs filled up I was on Antibiotic and for about 4 months on more antibiotics. And that got my blood so thin I had to go once a week, then it got so thin I started bleeding really bad. So you can see we need our insurance.

Please if you can help all of us. Please try your best. Its hard to make ends meet now as it is. We didnt get to buy our home until late in life. I am still paying it off. I know there is people alot worse off than I am. I hope God is watching over us he has me. Cause there is day that he carries me, or walks before me and I know God holds my hand

(3)

day after day. And gives me
Wisdon to get through life
So please do your best
thats all I ask.

Thank's so much
May God Bless you
And Walk with also.
