U.S. BANKRUPTCY COURT  
EASTERN DISTRICT OF MISSOURI

## To Whom it Concern

Let me start from the beginning my husband have been married 38 yrs. this Nov. Wendell started for Peabody in 1973 he got laid off in 1988 we had to struggle After this layoff, no insurance no back-up plan, had to sell our home to raise our 3 girls. Wendell went to work odd jobs, he went to work driving a mail truck he was contract out no insurance no back up plan again. I became very ill in 1992 he never gave up knowing he would get called back, he called he went person to person finally after 25 yrs he was called back to work 2008, he finally thought the mines was coming to save our family insurance yeah yeah!! He thought Peabody was to save us and he would have retirement and insurance, something he banked on and prayed for years peabody

was here. My husband Windell  
and I have health wise are  
failing I have heart problems  
1 Kidney failing (only have one)  
CAN'T WORK have had strokes

It's SAD because Peabody  
has let him down again HAVING  
medical problems and no Insurance  
and he want be able to fish  
in his retirement years, he will  
die working his ASS off.

We had a son-in-law that if  
he had had insurance he would  
have maybe lived longer and  
be here four his kids but  
Insurance was to expensive for  
at 36 and died.

I cannot accept the Fcked  
Windell ~~have~~ with Peabody and  
Peabody will let us down

Sherie Vandiver

Windell Vandiver

...  
my husband has always  
said you don't have to worry  
the mines will take of you
