Re: Case No. 12-51502

Please take a few min's to read this.

I am a coal miners wife. My husband worked 22 years underground, for Peabody Coal Co. During that time he had the roof cave in on him 7 times, each time he was injured.

When he retired, Peabody Coal Co. promised him and I full medical benifites. Now Peabody Coal Co. by creating Patriot Coal Co. is trying to cheat us out of our medical protection by declairing bankruptcy. Easy for Patriot-Peabody Co., disastrous for a man who gave 22 years of work and almost his life.

When you eat your lunch, look up at your ceiling and know it will probably not cave in on you. My husband Never had that assurance.

Bankruptcy is one of the problems fueling this countries demise.

Please help us.

Sincerely,
Mrs. Elaine (Robert) Davis
