To The Honorable Judge Chapman

My name is William Buck Wade, I am a retired
miner I am a resident of the state of West Virginia
I have been blessed to have worked in the
coal mines for over 40 years.

I am unable to pay for my kind of
work. I am being treated for a heart
condition. Sugarfield has treated Grand
father, mother, wife, and I have just
paid every thing I can. I thank God
I am still trying to go on. I need medical
care for which I have from Patriot
Health Care. If I should lose my coverage
from Patriot I don't know how my wife
and I will be able to do we are to old
to do any thing and with the type of
illnesses we have I don't know how we
could survive. I served in Central

in the second world war and was
honorable discharge from the army.
After three years of service I came home
back to work in the mine no where else
have I ever worked. I was a young man in
good health and I gave all of my health and youth
to the coal company.
I hope you consider what is fair and right.
Thank you for the time taken.

William Buck Wade
