The Honorable Shelly C. Chapman,

I am writing you to let you know if I lose my health care I will not be able to breath. I have bad lungs, I need my medication, and I am also a diabetic. So please, do not let them take away what I worked so hard for.

This needs returned to West Virginia because this is where the coal mines are and this is where it should be dealt with.

Thank You,
Alston Daring D. Hart
